APPLICATIONS FOR THE CARNE-GIE BADGE OF HEROISM HAVE ALREADY REACHED 20,000.

PITTSBURG, January 10 .- Fully 20,000 persons who regard themselves as heroes have applied for the Carnegle medal. Heroes in every state of the Union, from Main eto California, are sending in notification of their claims to the Carnegie here fund com-Every nook and corner throughout this broad land has yielded up one or more heroes. Hundreds have discovered themselves in Pittsburg alone. A peculiar part of the affair is that although the commission was organized in April, 1904, not a single award has been made.

The machinery of the commission has become clogged; in fact the wheels have almost stopped. As for the overworked secretary and his colleagues of the commission these are hero" above a whisper for fear of starting a fresh run on the omce before the 20 000 or more heroes who are already registered have been sorted and mounted on their particular pedestals, to which their various deeds

Thousands of statements, affidavits, vouchers and the like yet remain unread, so difficult is the task of measuring any one hero by the standards which are available.

The present scattered location of growing business coming to them makes it imperative, in the interest of he business community that whatever s to be done should be done now.

This factor of immediate necessity brings us to consideration of the possibilities of the usual routine of building operations under Government auspicer and in this connection it is well to bear in mind the many years of work, worry and trouble experienced by cities on the West Coast In the securing of appropriation, the selection of a site and after all preliminary arrangements are completed, the time consumed in erection.

Locally, while the business community is well united in its views as to the section of the city within which the Federal building should be located yet the site has not been selected and every owner will make an opportunity of presenting the advantages of his own particular property, naturally indefinitely delaying the time when, the site having been purchased and preliminury data having been obtained, the matter of building can be considered, it will be a question as to the time for drawing plans, then the time for procuring and forwarding necessary structural material after the contract has been let; these all indicating the large of years before the final completion of any structure that may be originally planned to meet the federal require-

In the light of the above probabilit's the alternate proposition is advanced for the purchase of an existing structure, the builders and traders of Honoiuiu feeling that the public welfare is the prime consideration in this matter of a federal building.

January 20, 1905, Hon. J. K. Kalanianaole, Delegate from Hawati, House of Representatives, Washington, D. C.

Sir: After an animated discussion the hast night voted unanimously, except for one dissenting voice, to endorse your Honolulu Public Building bill in preference to entersing the Cushman-Perkins bill for the possible purchase of the Young building. This was The list of offices above enumerated cabled to you this morning by our new

In order that you may have the marmakes self evident the desirability if ter, as far as the views of this Exnot actual necessity of properly house change is concerned, fully in hand I ing them under one roof as soon as would say that the day your cablegram was received January 4th, discussion was had at a special meeting of the these several departments and their Exchange which ran generally in favor madequate facilities for handling the of purchasing the Young building. A committee was appointed to draw up suitable resolution and report to the Board of Pirectors at January 7th. Their report, a copy of which is enclosed, was accepted by the board and favorably recommended by it to the annual meeting of the Exchange.

Upon its presentation last night the usual motion to adopt being made and seconded, an animated and lengthy discussion ensued, the membership being about equally divided.

A motion to re-commit with instructions to the committee to report a resolution in favor of the Kuhio bill. After further discussion this motion was withdrawn in order to get a direct vote on the question as to whether the Perkins or the Kuhio bill should be endorsed. A motion to adopt the report, endorsing the Perkins bill, was put to a vote and lost.

A motion to re-commit was again made and again withdrawn in favor of a motion that it is the sense of this Exchange that the Kuhio Honolulu Public Bullding till be endorsed. This fatter motion carried unanimously, with the exception of one member, who rose to explain his vote and stated he thought Honolulu should have two public buildings of at least \$2,009,000, that the city being the twelfth in the United Stats in amount of customs rehouse in addition to a general federal public building. I state this in order that you may see to all intents an purposes the vote was unanimous.

I don't think it is out of the way to state further that the Exchange membership seemed to generally consider that the purchase of the Young builds ing would be of more immediate and direct benefit to local building intering resolution for adoption by the Ex- ests than a new federal building, but fluenced the Exchange in its action last ments locally representing the federal night was the desire that the sentiment of Honolulu as expressed through its public bodies, be unanimous it possible, and both the Merchants Association and the Trades & Labor Council are already on record as opposed to
